

CINCH-LOC™

The most effective method to cover Box Springs to be utilized by the Bedding Industry.

Improves the quality of cover applications

- Provides shape and pattern consistency from Box Spring to Box Spring.
- Easy to apply.
- Reduces operator fatigue.

Fabric Savings

- Precision cutting eliminates waste by 2" to 3" per panel.
- Fabric yield increased 25%

Reduces Labor Cost

- Average operator production increased
- Facilitates application.
- Facilitates cross-training
- Reduced labor fatigue
- Improves cell efficiencies

Cinch-Loc™ is a simple, easy method to apply covers to Box Springs. It is a textile tape that encapsulates a draw cord. The product is sewn to the perimeter of the border and the cord is pulled and attached while the Box Spring is held secure. Bedding Manufacturers are discovering the simplicity of **Cinch-Loc™**. We invite you to join with them in this discovery of new and better efficiencies for your Box Spring Cover applications.

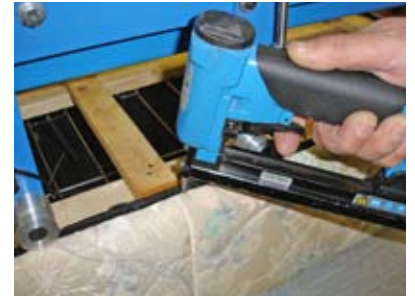

1. Cinch-Loc™ is sewn to the border.

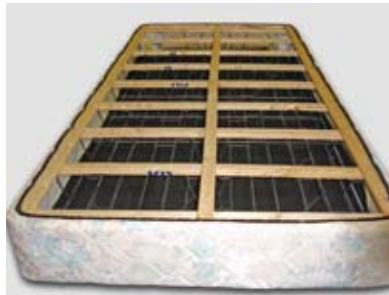

2. Completion of Cinch-Loc™ sewn to border. Assembly ready.

3. Compress Box Spring with assembly and pull cord.

4. Cinch-Loc™ pull cord is stapled to the frame

5. Finished Box Spring

6. Attachment by sewing - superior to stapling.
